

Red Lily Health, Northern Territory Government Health staff and Jabiru CatholicCare have delivered important messages, including having healthy skin and information relevant to scabies and its prevention, throughout Kakadu communities this week. Read more, pages 8 and 9.

EMBRACING RECONCILIATION WEEK

All West Arnhem residents are encouraged to take part in National Reconciliation Week (NRW), which began on May 27 and will continue until June 3.

This week is significant as a time for all of our communities to learn about the shared histories, cultures and achievements, and to explore how everyone can contribute to achieving reconciliation in Australia.

The dates for NRW remain the same each year; 27 May to 3 June and these dates commemorate two significant milestones in the reconciliation journey—the successful 1967 referendum, and the High Court Mabo decision respectively.

The 2020 NRW theme is 'In this together' and this year also marks the twentieth anniversary of the reconciliation walks of 2000,

when people came together to walk on bridges and roads across the nation and show their support for a more reconciled Australia.

"Our communities to learn about the shared histories, cultures and achievements.."

While our West Arnhem communities, including Jabiru, Gunbalanya, Maningrida, Waruwi and Minjilang, ordinarily hold their own events which bring residents together for National Reconciliation Week each year, this year is a little different.

From 25 May to 3 June, everyone is encouraged to participate in the online events relevant to National Reconciliation Week including:

Friday 29 May: Sydney Ideas 'In this together'

Tuesday 2 June: Culture Forum: Openness and Engagement

Wednesday 3 June: Demystifying the 'Acknowledgement to Country'

Wednesday 3 June: Why Mabo Day matters (1 -2pm)

Together, West Arnhem communities can work with each other to further that national journey towards a fully reconciled country.

For further information or ideas on how to get involved in the week, visit <https://nrw.reconciliation.org.au>

ABORIGINAL RANGER GROUP GRANT DEADLINE EXTENDED

There's been a further extension to the Northern Territory Government's Aboriginal Ranger Grants program current round, and applications are now open until Sunday, 31 May.

Pictured are the Adjumarllarl Rangers from Gunbalanya in West Arnhem Land which used their grant funding to support their work in managing the invasive weed, *Mimosa pigra*.

Mimosa has been listed as one of the world's top 100 invasive species (IUCN database) due to the vast and dense monocultures it can form on floodplains. In Australia, *Mimosa* is listed as a weed of national significance.

Head to the NTG's Department of

Environment and Natural Resources website, for more videos, and how to apply.

Funding of up to \$150,000 is available for single-year projects and activities that fall under one or more of the following themes:

- on-ground activities
- investment in people
- growing the sector
- monitoring and evaluation
- planning
- innovation

If there is anything the Territory NRM team can do to assist you with applications, please get in touch with them.

The West Arnhem Wire acknowledges the traditional owners of country and their continuing connection to land, waters and community. We pay our respects to them and their cultures, and to elders, past, present and future.

The Wire is the only regular source of news and information in the Kakadu and West Arnhem Land region. More than 700 copies are distributed fortnightly to Jabiru, Waruwi, Minjilang, Maningrida and Gunbalanya.

Our electronic edition goes out to more than 500 individual email addresses across West Arnhem Land and the Top End.

The Wire accepts advertising from businesses and government organisations. Placement of ads is subject to editorial and Council policy.

Our competitive rates start from as little as \$65 (including GST). Call 08 8979 9465 today or email wire@westarnhem.nt.gov.au to discuss how we can help you spread your messages around West Arnhem Land.

ADVERTISING DEADLINES

Bookings: 5pm Monday prior to publication

NATIONAL SIMULTANEOUS STORYTIME

The Jabiru Public Library celebrated National Simultaneous Storytime on May 27 a little differently this year.

While the library usually holds the special storytime publicly for the community to enjoy, this year's event was posted online for everyone to tune in.

This year, Jabiru Library Coordinator Jillian May read 'Whitney and Britney the Chicken Divas!'. National Simultaneous Storytime (NSS) is held annually by the Australian Library and Information Association (ALIA).

Every year a picture book, written and illustrated by an Australian author and illustrator, is read

A snapshot of the YouTube video created for National Simultaneous Storytime.

simultaneously in family homes, bookshops, libraries, schools, pre-schools, childcare centres, and many other places around the country.

EQUIPMENT RELOCATION

West Arnhem Regional Council's SANY Grader has been relocated from Gunbalanya to Waruwi to help carry out earthworks around the community.

The previous Caterpillar Grader on the island went to auction recently.

BRIGHTENING MANINGRIDA COMMUNITY

A total of 22 new LED solar lights have been installed throughout the Maningrida community recently.

Proudly funded by the Maningrida Local Authority, this street lighting project is fundamental to community safety and the well-being of local residents.

West Arnhem Regional Council works crew in Maningrida carried out the project and installation which took around two weeks to complete.

The lights were positioned in strategic locations which were selected by the Local Authority, to brighten previously unlit areas around

the community.

This will ultimately increase community safety and help deter anti-social behaviour in public areas.

The project involved the use of a hydro vacuum unit to excavate the foundations to a specific depth to avoid damaging existing underground services. An excavator was then used to complete the foundation depth to 1800mm depth. The works crew put the poles in place and mounted the lights with a scissor lift.

West Arnhem Regional Council wishes to thank the Local Authority members for supporting this project.

LIFTING OF BIOSECURITY ACT RESTRICTIONS WITHIN THE NT

Commonwealth Biosecurity Act restrictions protecting the Territory's remote communities will be lifted on June 5.

Chief Minister Michael Gunner said, "I know it hasn't been easy but soon remote Territorians will be able to move freely between communities and come into town and return home again without having to quarantine."

"It's a decision that I've made in consultation with our Land Councils, Traditional Owners, Custodians and Elders," he said.

Mr Gunner said the restrictions can be lifted safely on June 5 because of the Territory's strict external border controls.

"It's been weeks since we've had a new coronavirus case, and Territorians are doing the right thing," he said.

Mr Gunner said the Queensland, Western Australia

and South Australia borders with the Territory will remain closed, except for essential personnel.

Non-essential travellers arriving at the Territory's external borders will still have to quarantine for 14 days.

Physical distancing and hygiene protocols will still strictly apply to all of the Territory, including remote communities.

The order to lift the restrictions relating to the Territory was signed late on Saturday by Federal Health Minister Greg Hunt.

Mr Gunner said, "I've been working with Federal Indigenous Affairs Minister Ken Wyatt and the Australian Government to ensure all Territorians have a clear pathway to our new normal - and I thank them for their work."

The Chief Minister also thanked remote Territorians.

LIVE & WORK ARNHEM LAND & KAKADU

- Manager People & Learning**
 To apply or to request an information pack, please phone 08 8979 9449 or email: Michelle.Brewster@westarnhem.nt.gov.au

MINJILANG COMMUNITY COMES TOGETHER

Minjilang enjoyed a whole-of-community event recently with local Police Travis and Christian enticing everyone to take part.

The event included some great football being played by all residents of all ages.

This was then followed by the delicious barbecue.

The Police put on a real show which was well-supported by the community.

PUBLIC CONSULTATION

'Draft Regional Plan and Budget 2020 – 21'

West Arnhem Regional Council is seeking feedback on its Draft Regional Plan and Budget 2020 - 21.

This Draft incorporates significant documents including:

- *Regional Strategic Plan*
- *Consolidated and Detailed Budget Information*
- *Rates Declaration*

You can obtain a copy of the Draft Regional Plan and Budget 2020 - 21:

- By downloading a copy from

www.westarnhem.nt.gov.au/corporate-documents

- In person at 13 Tasman Crescent Jabiru, or at the Regional Council Offices in Waruwi, Minjilang, Maningrida or Gunbalanya

- By telephoning (08) 8979 9444 or emailing

info@westarnhem.nt.gov.au

**Feedback and comments must be submitted by:
Midnight on Friday, 5 June 2020**

This can be sent by email to: info@westarnhem.nt.gov.au or by mail to:

Chief Executive Officer, PO Box 721, Jabiru NT 0886.

For further information, please call (08) 8979 9444.

Daniel Findley
Chief Executive Officer

MEN'S SHED TO SUPPORT WELL-BEING

The Jabiru community will soon be able to access a very important Men's Shed.

"It's more than just a place to hang out; it's a place to reconnect, share and contribute to your community," said James Kepui, chairperson of the newly-formed Jabiru Men's Shed, part of Australia's largest male non-profit organisation.

"In the shed we'll be making all sorts of things from spears to roadside crosses, fixing bikes and going hunting, sharing skills and practical tools to maintain the body, mind and spirit balance," he said.

Australian Men's Sheds have been established since 2007 and have proved to be significant contributors

to community life. Sharing information between sheds has improved links in the community, supported men's health and well-being and reduced social isolation.

The Jabiru Men's Shed is seeking sponsors and donors to contribute tools and materials to start things happening. One unique idea is a 'virtual men's shed' trailer so that volunteers can travel to nearby communities to provide basic repairs and support men's health and well-being initiatives.

Initial meetings, until a shed is established, will be held on a monthly basis at Red Lily Health Board. Contact James on 0437402328 to get involved. They look forward to hearing from you.

PROVIDING ESSENTIAL SERVICES TO COMMUNITY

West Arnhem Regional Council (WARC) wishes to acknowledge the efforts of Carolas Dai in Minjilang who has excelled in the field of Essential Services.

"Strives to continue to be a role model to the younger generations.."

Carolai Dai of West Arnhem Regional Council has excelled through pathways training to become an Essential Services Officer in Minjilang.

Commencing as a works assistant in Minjilang in 2017, Carolas expressed an interest in working within the Essential Services area and, after some time, was transferred to be the Assistant Essential Services Officer.

Working along Terry Jackson who is a current ESO, Carolas has learnt all aspects of providing Essential Services in a remote community.

With Terry's guidance, he has since excelled and in July 2019, the Senior ESO travelled

to Minjilang to conduct a competency assessment which Carolas passed. This assessment is a tool developed by Power and Water Corporation.

As a result, Carolas said he is proud to have gained expertise in Essential Services and sees this as an important role in any remote community which keeps the community running.

As the first successful

indigenous employee to complete this pathway to become a competent ESO, Carolas strives to continue to be a role model to the younger generations and contributes to the development of knowledge in the communities.

Students from Gunbalanya have also showed an interest in his work and indicated that they too can be trained to maintain the Essential Services

in their community.

WARC Project Coordinator Fatima Tjung said Carolas has shown great skill and commitment to his work as well as building really good relationships with other ESOs.

"He will now be travelling within our communities to provide respite and relief when needed," Fatima said.

"Carolai is an example of WARC's commitment to growing our own expertise and empowering the youth in the communities."

COLLABORATION WITH BAKER BOY TO PROMOTE WATER CONSERVATION

Power and Water Corporation has teamed up with Aboriginal rapper and 2019 Young Australian of the Year Baker Boy to produce a series of videos about sustainable water use in the Northern Territory.

In the videos, Baker Boy, who grew up in Maningrida and Millingimbi, inspires students to learn about where their water comes from and about Aboriginal peoples' cultural connection to water.

He also encourages students to think about their role in their communities and achievable social actions to look after their water.

"Baker Boy is a great role model and we hope having him as the face of our program will encourage young people to save water where they can," said Water Demand Manager at Power and Water, Jethro Laidlaw.

"We want the next generation to understand where their water comes from, and the very important role they have in making sure water continues to flow from the taps.

"In remote communities,

Power and Water Demand Management Officer Jethro Laidlaw with the campaign's water champion Baker Boy.

preserving water helps allow people to continue to live on country, and in the major centres, it's important we all start to value tap water more."

Mr Laidlaw said water is a precious resource and everyone should use it responsibly.

"These new programs are also a great opportunity for students to learn from Aboriginal elders and Power and Water experts even though they are practising physical distancing," he said.

Baker Boy said he was proud to be part of such an important initiative.

"I hope these videos can inspire the kids to take control of their environment," he said.

"We can't live on country without water and we need our next gen to learn how to take care of it and not waste it.

"Learning where water comes from and how the whole water process works empowers our youth with knowledge!"

Two different versions of the program are available, one targeted at students living in remote communities and the other for students in larger towns, including Darwin.

The videos will complement student storybooks as part of the That's My Water! curriculum unit developed by Power and Water to educate the next generation of water users.

The programs are designed to give parents and teachers flexibility in how they are delivered and can be run over a few lessons or an entire term.

It aims to give students aged between eight and 14 years a better understanding and deeper appreciation of water.

Since 2016, Power and Water has worked with partners including the Northern Territory Department of Education and the Department of Environment and Natural Resources, Charles Darwin University and the Bureau of Meteorology to deliver school programs across the Darwin and Katherine area to more than 2,500 students.

MESSAGE FROM JABIRU POLICE

The Biosecurity Check Points (BCP) will open on June 5, allowing unrestricted access to Kakadu, Jabiru and the West Arnhem communities.

This is via the Arnhem and Kakadu Highways.

With the BCPs open at midday on June 5, Police are asking anyone who decides to travel on that weekend to please take it very carefully on the roads. Presently, the highways are inundated with wildlife, due to the recent lack of traffic, there is a high possibility of vehicle colliding with animals on the roadway.

There is not only small animals, but sightings of large beasts such as buffalo and brumbies, so please enjoy your freedom and stay safe.

Also, given the closing of the BCPs, the Jabiru MVR and front counters will recommence the regular Thursday service between 8am and 4pm from June 11.

If your request is not urgent, we encourage community members to wait a week or so to avoid crowding the station.

As there will only be 2 persons allowed inside the station at any one time to ensure social distancing, please be respectful of this limit.

This is at both the MVR and Police front counter.

INJALAK ARTISTS MAKE FINALS IN PRESTIGIOUS ART AWARDS

Injalak Arts in Gunbalanya are very proud and excited to announce that Injalak artists Don Namundja and Titus Nganjmirra (both pictured right) are 2020 Telstra National Aboriginal & Torres Strait Islander Art Awards (NATSIAA) finalists.

"Opportunity to showcase their works to a national and international audience.."

These awards, which are Australia's longest-running and most prestigious indigenous art awards, give artists the opportunity to showcase their works to a national and international audience.

Don Namundja was previously selected for the prestigious National Aboriginal and Torres Strait Islander Art Awards in 2003, 2005, 2006 and more recently in 2014. In 2020, Don is a finalist in the Telstra Works on Paper Category.

Titus Nganjmirra was a winner last year

taking home the Telstra Emerging Artist Award for his painting of Queen Elizabeth II. This year Titus is a finalist in the Telstra Bark Painting Category.

For more information and to see the full list of finalists, visit <https://www.magnt.net.au/natsiaa>

The exhibition dates are 8 August 2020 – 31 January 2021. Good luck to both artists.

DANCE PROGRAM SUPPORTED BY WARC AND MALALA

Amidst COVID-19, West Arnhem Regional Council's (WARC) Youth, Sport and Recreation team and Malala have had to be creative in order to deliver regular recreation programs.

Thanks to Express Studios in Darwin, West Arnhem communities have received a 3 stage dance program to keep young people active and happy during COVID-19 restrictions.

Express Studios has supplied Maningrida and other West Arnhem communities a girls dance routine, boys dance routine and a break dance routine to learn virtually with the support of WARC and Malala.

The Maningrida Girls Dance Troupe were able to learn the girls dance routine, which was choreographed by Alex Meng, last week at the Wellness Centre with Maddy's support.

After the girls had the moves down pat, they were filmed and made a short

video which will be sent back to Express Studios for feedback.

"3 stage dance program to keep young people active and happy during restrictions.."

As part of the program, live classes are also being delivered at the end of each week, however due to internet issues, the Maningrida Girls Dance Troupe weren't able to receive a live class.

The Maningrida boys are looking forward to learning their dance routine in the coming two weeks with YSR assistant Adriel.

Stay tuned for some fun videos of the Maningrida young people getting their groove on.

CHILDCARE GROWING NATIVE PLANTS

The children at Jabiru Childcare Centre were engaging their motor skills with some gardening and planting native plants which Energy Resources of Australia recently donated to the community. The children enjoyed squishing the dirt between their hands, as well as gently caring for and watering the plants. They are looking forward to watching the plants grow as the children will continue to water and

Poppy had her gardening gloves on ready to repot a small plant.

Baden watering the plants after they were repotted.

Piper was very excited about watering the plants.

Charlie raking the soil from the pots.

OLD WORDS IN BININJ KUNWOK LANGUAGES

The Bininj Kunwok Regional Language Centre have shared some 'Kunwok Nakare' – old words in Bininj Kunwok languages.

There are some words in Kunwinjku and other West Arnhem Land languages which older people don't hear very often, and some younger people have never heard these words.

See if you know this word Ngalwakadj Jill Nganjmira is talking about;

"Durruyuk" - arrow on the ground

Long ago the old people, when they would camp in the bush, they would mark an arrow on the ground with their feet if they were moving camp, to let others know to follow wherever they were going, so that the others would come and see the arrow there, then follow in the proper direction.

Kunwinjku:

Nawu dabborrabbolk korroko bu birrini kore manbehbeberk, bu birribolkbawoni kore birrihyoy,

wanjh kore kurore birrimarnbuni durruyuk, birridengeyirrinjkarreni, bu birrimunkemulewarreni kore baleh yarrkka birrirey. Ba birribuyika birrimrey, birrinani durruyuk yoy, wanjh mandjad birrirey bu bindimunkekadjungu.

To hear the story on Youtube, just point your Iphone camera at this code then follow the link. Or if you have a smartphone, search for "QR code" app in Google Play Store. Then open the app and point it at the code. Then follow the link.

NEW MACHINERY AT GUNBALANYA

Jabiru Council Service Manager Jesse Evans and Senior Works Officer Kevin Voisey with the new compactor.

Pictured is the new garbage compactor which has made its way to Gunbalanya.

Council identified that purchasing a new garbage truck will guarantee long-term benefits to sustainable core service delivery in Gunbalanya.

While improving waste management and litter reduction services, the new rubbish compactor will also increase the efficiency and capacity to deliver services in a shorter timeframe.

It will also assist with disaster and clean up mitigation and providing a healthy community.

The new machine was partially funded by a Special Purpose Grant and from Council's capital reserve.

KAKADU HEALTHY SKIN CAMPAIGN DELIVERY A HUGE SUCCESS

Red Lily Health, with staff from Northern Territory Government Health and Jabiru Catholic Care came together this week to deliver the important message of Healthy skin and having a scabies free zone in Kakadu communities.

The One Disease small grant and donated items from Jabiru Puma Service Station, Gundjeihmi Aboriginal Corporation, and Top End Health Service allowed Red Lily to arrange important educational packs which were distributed to residents of Kakadu communities during the educational promotion of healthy skin this week.

Project Officer Denise House commented that even with the disruption of COVID-19, the educational delivery of healthy skin was a huge success.

“The aim was to promote and alert people in the community about what is scabies, how to recognise if they have scabies, how to prevent the spread of scabies and the overall importance of having healthy

skin, and I couldn't be happier with how successful this message was delivered.”

Denise further continued by stating that regular online team training on scabies and healthy skin assisted the Healthy Skin team in delivering a clear, precise and consistent message about scabies and the importance of healthy skin.

For further information on how you can assist in creating a Kakadu scabies free zone, please contact Red Lily on 8979 9900.

HEALTHY SKIN HEALTHY YOU

**ONE
DISEASE**
BELIEVE'S. CONNECT. INSPIRE.

healthy skin mob

We Red Lily Health Board Acknowledge One Disease with support of the Healthy Skin Program in Kakadu National Park 2020

WHAT IS SCABIES?

Scabies is a skin disease caused by tiny bugs called scabies mites.
You can see the scabies mite under a microscope.

SCABIES LIFE

- The mites dig under your skin to lay their eggs
- The eggs hatch within 2-3 days
- The eggs turn into a Larva which is a baby scabies mite within 3-4 days
- The baby scabies mite turn into a teenager scabies mite within 4-7 days
- Then mites turn into an adult within 1-2 months
- When the female and male scabies mite mate and the female is fertile the male soon after dies.

HOW DO YOU GET SCABIES?

Sitting too close to someone who has scabies.
Touching other people's clothing who have scabies

Shaking hands or holding hands

You can't get scabies from dogs

- Holding babies or children when the person has scabies.
- Sleeping on a person's bed who has scabies.

HOW DO YOU KNOW YOU GOT SCABIES?

- Your skin get itchy especially at night.
- Sores get infected from scratching
- Sores in-between your fingers
- Sores on your hands and other body parts.

CAN YOU GET SICK FROM SCABIES?

You can get very sick from scabies. When the mites dig holes in your skin germs can go into your body

- **Kidneys** - inflammation of the kidneys (glomerulonephritis) which increases the risk of kidney failure later in life.
- **Can poison your blood**
- **Heart** - inflammation of the heart (acute rheumatic fever) which can lead to rheumatic heart disease and heart failure.

SCABIES MEDICATIONS

These medications to get rid of scabies, you can only get at your nearest health centre when you see a Nurse, Doctor or Aboriginal Health Worker.

- When you use the cream you have to put the cream all over your body.
- Everyone in the house as to put the cream on as well to get rid of them.
- When the cream is on, leave it on to you have a shower next.
- After 7 days you have to put the cream on again. This is to kill the eggs that have hatched.

HOW TO GET RIDE OF SCABIES

- Treat everyone in your house with scabies cream
- Wash all the clothes and sheets and hang out in the sun.
- Put your mattresses out in the sun
- Give your house a good scrub
- Have a bath, shower or swim every day

JAIRU BUSHRATZ PREPARE FOR 2020 SEASON

As of Friday, June 5, the Jabiru Bushratz will resume contact training again.

Due to COVID-19, they were unable to attend Darwin games, however they will begin running an in-house competition to get them ready for a late season in Palmerston in September.

This is a community event and organisers would like to encourage family and friends to come and support our young people.

There will also be an adults game if anyone is interested in having a run around.

Organisers have decided that on Thursday nights for the last 3 weeks of the school term – (Thursday 11th, 18th and 25th of June) they will play mock, inter-club games against each other like they would normally do on a Friday night in Darwin if it wasn't for Coronavirus.

There will possibly be a barbecue afterwards for players and the wider community.

How this would work: 3 in

house games, over 3 Thursday evenings

- The U10's players will be split evenly into two even sided teams which will be their teams the kids play in for the 3 weeks against each other (One team will be called Bushratz green and the other Bushratz red)

- The U12's players will be split evenly into two even sided teams which will be their teams the kids play in for the 3 weeks against each other (One team will be called Bushratz green and the other Bushratz red)

First up, the U10's game would be played followed by the U12's game.

- Kick off for the U10's game will be at 5.00pm at Magela Oval. The U10's will play 2 x 20 minute halves (as they do normally on a Friday night) with a 5 minute half time.

- Kick off for the U12's game will be at 6.00pm at Magela Oval. The U12's will play 2 x 25 minute halves (as they do normally on a Friday night) with a 5 minute half time.

DRY SEASON HOURS AT JABIRU POOL

With the cooler weather here, West Arnhem Regional Council wishes to remind pool users that as of 1 June 2020, the Jabiru Pool will resume 'dry season' opening hours.

The 'dry season' opening hours are:

Mondays: 12 noon to 6.30pm
Tuesdays: 12.30pm to 6.00pm

Wednesdays: 12 noon to 6.30pm

Thursdays: 12.30pm to 6.00pm

Fridays: 12 noon to 6.30pm

Saturdays: 12 noon to 6.30pm

Sundays: 12 noon to 6.30pm
Public Holidays: 12 noon to 6.30pm

The dry season opening hours also apply to the Jabiru gym.

BUSHRATZ

Inter-club games

WHEN: Thursday 11th, 18th & 25th of June

WHERE: Magela Oval

Time: 5pm = U10 **RED** VS U10 **GREEN**
2 x 20 minute halves

Time: 6pm = U12 **RED** VS U12 **GREEN**
2 x 25 minute halves

Teams: Players will be split evenly in to
"RED" or "GREEN"

*Come on down and support, cheer and watch our very own Bushratz go hammer and tong at each other as they battle it out for community *bragging rights**
