- Cr Dann raised a need:
- to recycle scrap metal at the back of the Gunbalanya Waste Management Facility DEMED engaged for transporting steel to landfill site now completed for solar lights on Gunbalanya Back Road and Powerhouse Turn Off - Report to be tabled at the next Gunbalanya LA Meeting Thursday 26/10/2023 0

Cr Blyth noted that the:

- Caravan Dump Point on Jabiru Drive had broken hinges on the lid Jabiru Works Team have found a more appropriate alternative. The current heavy lid seems to be getting dropped back in to position and it is impacting the hinges. The intention is that this lighter lid will also decrease the risk of strains or sprains for users. The works team have installed the lighter lid with positive feedback from users in the first few days. The team have also requested a quote for owering the tap (or installing a second tap lower which should be cheaper).
 - Telstra Pay Phone at Murganella did not provide free phone calls as advertised by Telstra nationally: Administration have reached out to the Telstra Area Regional Manager Nic Danks has responded and escalated issue for further advice.
 - Street lights along Jabiru Drive are illuminating during the day rather than at night This is due to a cable fault. Power and Water are attending Jabiru next week to provide a guote this job separately as the team believe it will involve excavation and some additional of work.

Mr Matthew Ryan Mayor West Amhem Regional Council PO Box 721 JABIRU NT 0886

Dear Mayor Mary

Thank you for your letter dated 1 August 2023, regarding consultation on the draft Guideline for the management of human remains (the draft Guideline) and the Burial and Cremation Act 2022 (the Act) with communities in West Arnhem.

The Department of the Chief Minister and Cabinet (CM&C) is undertaking a collaborative approach with various stakeholders, including local government councils, as it develops resources to support the implementation of the Act.

I acknowledge the importance of informing community members about the new burial and cremation legislation, so that they understand the implications for their communities and can raise any issues or concerns.

t understand that officers from CM&C attended the Maningrida Local Authority meeting on 3 August 2023 to discuss the Act, the draft Guideline and the upcoming Regional and Remote Burial Areas Grant Program.

I also understand that CM&C is liaising with your Council to arrange visits to other communities in the West Arnhem region in the coming months, for the purpose of discussing the implementation of the Act.

Further details on the Regional and Remote Burial Areas Grant Program will be released in the near future and Lencourage your Council to consider applying for grants under this program.

I thank you for your interest in these important matters, noting that CM&C is open to receiving feedback and engaging with communities as resources are developed to support the implementation of the Act.

TERRITORY FAMILIES: MANINGRIDA

Dear Hon Kate Worden,

I am writing relating the obvious lack of Territory Families presence in Maningrida, a community with a population of over 5000 and the general lack of support for our greater region.

The previous permanent Territory Families representative was relocated and this has left an obvious void in the service delivery required in Maningrida.

There is an obvious lack of support for housing and community safety and I feel it dutiful to bring this to your attention formally on this platform.

I invite you to visit Maningrida and see first-hand the affects this lack of support is having on our Community.

I ask you to urgently address the needs of Maningrida, please ensure an urgent deployment of suitable staff to support our community and its needs.

Please contact me by phone or email Matthew.Ryan@westamhem.nt.gov.au or 08)8979 9444

Yours Sincerely,

Mayor Matthew Ryan

Dear Ms Schaeken

Re: Incorporation of the Cox-Daly and Marrakai-Douglas Daly Unincorporated Areas

The Northern Territory Government has determined that it will not continue with the proposal to incorporate unincorporated areas in the Cox-Daly and Marrakai-Douglas Daly into one or more local government areas at this time. It is important to ensure that enough time is allowed for sufficient consultation to occur with all stakeholders before any final decision is made.

A lot of information was carefully considered before making this decision, including feedback from the public 'Have Your Say' process, which ran from March to May 2022, information raised by community members at public meetings and through other forums, input from local government councils and industry bodies, and the analysis of important factors such as cost, local representation and the delivery of services.

Your input into this process is appreciated.

If you would like to discuss this matter further, please do not hesitate to contact me on telephone: (08) 8999 8573 or via email: susan.watson@nt.gov.au,

Yours sincerely

Dear Ms Schaecken

Last week Minister for the National Disability Insurance Scheme (NDIS), the Hon, Bill Shorten MP, announced that Maningrida will be the first of two trial sites for an Alternative Commissioning approach. This \$7.6 million investment over two years for two trial sites will ensure NDIS participants living in Maningrida will have better access to disability supports.

Alternative Commissioning is placed-based and community-driven and will allow the NDIS to deliver more culturally appropriate and viable disability supports for Maningrida. It will also enable participants to pool NDIS funding to more efficiently purchase services from providers and allow the community to directly contract specific providers to deliver the supports required in the community.

This announcement will complement the work already underway from the deep dive into the NDIS, which I initiated a few months ago when I visited Maningrida with Commissioner Tracy Mackey. This is very exciting news and puts Maningrida on the national stage for this highly anticipated trial.

Further details will become available over the coming weeks, and I will ensure to keep the community up to date. In the meantime if you have any further enquiries please contact your local member Manuel Brown MLA via email to <u>Electorate Arafura@nt.gov.au</u> or my office via email to <u>Minister.AhKit@nt.gov.au</u> or telephone on 08 8936 5590.

Mayor West Arnhem Regional Council NT

For passing to staff as appropriate

Dear Mayor

World Wind Energy Conference 2023 (Hobart)

Full program now online

Early bird rates available until Friday 15 September

 The full program of this renewable energy conference is now available. Topics that may be of special interest to local councils include:

- off-grid hybrid solar/wind energy systems
- community power generation
- community engagement
- hydrogen and transpor, and of course

 the various <u>big picture</u> renewable energy transition topics that decisionmakers need to keep in mind.

The transition to renewable energy is impacting local councils from different directions:

- Councils may be planning their own renewable energy facilities or may be approached to work in partnership with private enterprise or community groups.
- · They may be considering hybrid wind/solar systems for regular use or for disaster preparedness.
- Council staff need to engage with stakeholders in dealing with generation, transmission and storage proposals.
- They may wish to engage with the community to encourage locally generated power generation facilities to be established.
- They need to ensure their long-term planning is aligned with the expected future direction of the transition.
- Staff who evaluate and discuss proposals need to understand arguments and present arguments that are tied to key aspects of the renewable energy transition such as integration, goals and trends.

The bottom line is that the more in touch key Council staff are with the renewable energy transition, the better the quality of their decision-making will be and the more efficiently those decisions will have been made.

LA Review

Why? Some communities across NT say they do not have a voice with their council; do not know what their council does for them

What did we find?

- Some strong LAs doing great things; LA funds being spent on community priorities;
- Not consistent across NT
- Need flexibility respond to different communities
- Need to be clear about LA role, and let communities know
- LAs should set their own agenda and conduct their meetings
- Councils to consider delegating decision making

Principles to guide greater community engagement

I.Flexible governance – adaptable and appropriate to different communities and led by the LA

2. Community-centred, place-based

engagement – recognising local needs, languages, time frames and cultural protocols to encourage community involvement.

Total investments increased from \$3.255M in June to \$6.768M in July 2023. Total current investments are broken down into 8 individual investments as listed in the table below. The investments listed below are held for a term on average of 235 days and generate interest income for Council. Investments are generally held with NAB as their rates are presently much more competitive than Westpac. The Westpac CMA investment for \$4,113,208 is currently being held in a Cash Management Account, with intentions of placing this into a Term Deposit in the near future. Council receives quotes on each occasion to ensure a competitive interest rate is obtained.

Statement of Working Capital / Current Ratio (slides 11-12)

Total current assets decreased by \$2.895M from \$4.913M in June to \$2.018M in July 2023. This is due to a decrease of \$1.909M in Cash and Cash Equivalents and a decrease of \$986K in Trade and Other Receivables.

Cash and cash equivalents decreased by \$1.909M and is due to:

- (a) An decrease in cash at bank (including term deposits) of \$1.202M and;
- (b) An increase in restricted cash of \$696K.

Total current liabilities decreased by \$968K from \$4.343M in June to \$2.403M in July 2023, mostly due to the decrease of \$1.438M in "Trade and Other Payables' and a decrease of \$507K in 'Other Liabilities'. The movement in current liability items is also shown in the table below. Council's net working capital (total current assets less total current liabilities) decreased from \$570K in June to -- \$398K in July 2023, as the net result of the movements noted above. The current ratio decreased from 1.13 to **0.83**, as at 31 July 2023. This calculation is also shown in the presentation slide 11.

Change in Calculation Methodology:

Effective from June 2023 the following changes have been made to the way the Working Capital Ratio is calculated:

- Include All Unrestricted Grant Funding in Cash and Cash Equivalents (Previously apportioned over the Funding Period)
- Exclude 'Inventories' and 'Prepayments and Other' from Total Current Assets
- Include only 25% of Total Provisions

Changes have been applied for 12 months historically for comparability / consistency.

The purpose of the change is to more accurately represent Council's capacity to meet short term obligations from Cash and Assets readily convertible to Cash.

Hilton Esplanade in Darwin will hold this convention on 8-10 November 2023 at DoubleTree and to consider whether to submit a motion.

BACKGROUND

A notice of the Local Government Association of the Northern Territory (LGANT) General Meeting and Annual General Meeting was sent via email on 31 July 2023, this email also called for motions to be submitted to LGANT by Tuesday 26 September 2023.

No registration details have been released as off this report.

COMMENT

LGANT's purpose, as per the Strategic Plan 2021-2024, is to support and represent member councils to drive economic and social development for NT communities by providing:

- Advocacy and representation
- Capacity building
- Promotion of the sector
- Governance development
- Service delivery and infrastructure

Policy positions are a statement or declaration of an organisation's stance on a particular topic(s). Further, LGANT seeks to influence public policy which is laws, guidelines and actions decided and taken by governments. Motions from councils help LGANT form its policy positions and statements that in turn, assist with advocacy efforts.

Advocacy is a broad term encompassing endeavours to achieve change. For LGANT, advocacy is activity undertaken to promote and influence issues that collectively effect local government.

There should only be ONE issue per motion. It is suggested that the council submitting the motion first discuss it with LGANT so they can outline existing activity, if any, in the topic area and assist with developing the business case.

Motions need to be approved by resolution of the local government council prior to submission to LGANT.

LGANT will assess the motion for completeness and appropriateness and if necessary, discuss it with the submitting member council and request more information or redrafting before including in the General Meeting Agenda. This process may require the council to re-endorse its motion. LGANT will draft a cover business paper for each motion and may present the final motions to the Board for review, before distribution to members via the final General Meeting Agenda.

By submitting a motion, your council has the opportunity to move and speak to the motion at the General Meeting it is going to.

The better your council's argument or case, the more likely it is to be resolved by members. Resolved motions are minuted following the General Meeting, allocated to LGANT staff for action, and reported on at monthly Board meetings.

WEST ARNHEM REGIONAL COUNCIL

FOR THE MEETING 20 SEPTEMBER 2023

Agenda Reference:	12.5
Title:	Community Water Quality Report
File Reference:	1093097
Author:	Fiona Ainsworth, Acting Chief Operating Officer

SUMMARY

This report is presented to Council in order to provide an overview on community water supply quality testing results as requested at the OCM in June 2023.

BACKGROUND

Further to ongoing concerns regarding community water use, quality and supply, it was determined to undertake individual microbiological water testing in all five West Arnhem Regional Council (WARC) communities to verify water quality and safety. It was recommended to utilise three residences across varying geographically spread locations and secure an internal and external sample for a total of six samples per community. These samples were managed under the same Power and Water guidelines we utilise for the existing contract.

COMMENT

Each WARC community provided two samples from three households, all specifically chosen for their geographical position. These samples were submitted to Darwin Water Microbiology Laboratory, a department of Industry, Tourism and Trade NT.

All community results as shown below reflect suitable water quality with nothing visible considered a health risk. The Chief Tester advised he would have no hesitation with quality of water supply with the results received.

Legend:

E.Coli – as per Australian Standards less than (<) 1.

E.Coli, is a type of bacteria and detection indicates a risk to human health.

Coliforms – as per Australian Standards less than (<) 1.

Coliforms will not likely cause illness, however their presence in the water indicates organisms or pathogens could be present. Most contaminate pathogens are from the faeces of humans or animals. **Heterotrophic Colony Count** – this is not a health parameter indicator, simply a quality guideline, ideally the count is less than (<)500. To note: a high count is classified at greater than (>)10,000, indicating an inferior water class.

Heterotrophic counts are used to assess the general microbiological quality of drinking water.

WEST ARNHEM REGIONAL COUNCIL

FOR THE MEETING 20 SEPTEMBER 2023

Agenda Reference:	12.8
Title:	Fleet Asset Online Auctions in Community
File Reference:	1093038
Author:	Graham Baulch, Project Coordinator Fleet

SUMMARY

This report is further to Council request at the June OCM to investigate altering the current fleet sale process and offer the respective community members the ability to purchase the vehicle/plant/equipment by tender in community in accordance with the Local Government Act 2019.

BACKGROUND

Council has disposed of fleet assets by public online auction for many years through Gray's Online and Manheim auction houses. While some of these asset disposals have been conducted on-site the majority of the assets are returned to Darwin prior to sale. Offering assets for sale in community has an impact on the total number of bids received and the subsequent price received for the asset as the greater region cannot access the asset to view and evaluate potential purchase. The current Darwin based online auction process exposes the assets to a wide range of buyers and maximises returns on sales and consequent return to Council. Additionally, all sales are final with no recourse available to WARC for asset longevity and performance.

COMMENT

While administration would prefer to dispose of all fleet assets at the end of their pre-determined retention period, funding is not always available to do this. The second attachment to this report, "Preferred Retention Periods for fleet assets" shows that 41% of fleet assets are overdue for replacement.

As a consequence, with the exception of the executive vehicle fleet, the majority of light and heavy vehicles, plant and machinery are disposed when they have reached end of life and are no longer viable to maintain. Many of these assets are bought to Darwin to remove them from community and reduce the load on our landfill sites, at times being sold for less than the cost of the freight to remove them from community.

The idea of making these fleet assets available to community members through sale on site may initially appear beneficial for the community members, but the great majority of these assets are no longer functional or roadworthy and would need significant work to become useful vehicles. Administration will detail the estimated costs of repairs needed in future requests for approval to dispose of fleet assets.

STATUTORY ENVIRONMENT

Council's asset sales are conducted in accordance with relevant provisions in the Local Government Act 2019, there is nothing in the Act or Regulations preventing sales being conducted in community.

POLICY IMPLICATIONS

Council's Strategic Asset Management Policy is relevant to this report.

FINANCIAL IMPLICATIONS

Income from the sale of surplus vehicles and plant is used to support the purchase of replacement vehicles and plant in line with Council's Strategic Asset Management Policy. In recent times the majority of asset purchases have been funded by a combination of grant money and returns from fleet asset sales. Any decrease in returns from asset sales will impact on future purchases. The attached document "Asset Disposals 2015 on" shows the returns from fleet asset sales since June 2015.

STRATEGIC IMPLICATIONS

Pillar 4 of Council's Regional Plan includes the need to both strategically manage, maintain and enhance community infrastructure and to provide a modern and well-maintained fleet of plant and vehicles capable of meeting service delivery requirements. Administration's ability to comply with both those goals is dependent on reserve funds being available for capital expenditure in the annual budget, accessing grant funding and income from asset sales.

PILLAR 4 SERVICE DELIVERY AND BUILT ENVIRONMENT

We provide high quality infrastructure and service delivery that meets the unique needs of each community, creates a sense of place and contributes towards promoting a sense of pride in community.

Goal 4.1	Strategic Infrastructure and Asset Management Strategically manage, maintain and enhance community infrastructure
Goal 4.2	Fleet, Plant and Equipment Provide a modern and well-maintained fleet of plant and vehicles capable of meeting service delivery requirements

FOR THE MEETING 20 SEPTEMBER 2023

Agenda Reference:	12.9
Title:	ANZPAC Plastics Pact
File Reference:	1093096
Author:	Sara Fitzgerald, Waste and Resource Coordinator

SUMMARY

The purpose of this report is to inform Council of our membership to ANZPAC Plastics Pact.

BACKGROUND

An initiative by the Australian Packaging Covenant (APCO), the product stewardship program for the packaging industry to provide a solution to eliminate unnecessary and problematic plastics.

COMMENT

As a government we have been granted free membership to the ANZPAC Plastics Pact which allows Council to apply for funding to support initiatives to reduced plastic packaging waste.

The targets of the ANZPAC Plastics Pact are as follows

TARGET 1 - Eliminate unnecessary and problematic plastic packaging through redesign, innovation and alternative (reuse) delivery models.

TARGET 2 - 100% of plastic packaging to be reusable, recyclable or compostable by 2025.

TARGET 3 - Increase plastic packaging collected and effectively recycled by at least 25% for each geography within the ANZPAC region.

TARGET 4 - Average of 25% recycled content in plastic packaging across the region.

With resources dedicated to assist in remote communities across Australia, New Zealand and the Pacific this is a strategic membership that will help improve our waste and recycling delivery across WARC communities.

APCO has already expressed interest in helping removing single use plastics for some of Councils major events including Kurrung Sports Carnival and Kakadu Triathlon, and provided a letter of support for a grant application for Remote Community Recycling Hubs.

Author:	Jasmine Mortimore, Travel and Executive Assistant to the CEO & Mayor

SUMMARY

The purpose of this report is to inform council that the previously proposed changes to the 2023 meeting calendar will not come back to Council for consideration. Instead in late 2023 a report will go to Council to consider these changes to be implemented for the 2024 calendar year.

BACKGROUND

In December 2022, Council determined a schedule of dates for the 2023 year. Last Ordinary Council meeting a report went to Council seeking support to alter the scheduled date to be inclusive of timelines, deadlines and report schedules to ensure Council is better informed.

Meetings are an integral component of Council's governance framework. It is through meetings that Elected Members, representatives from various government agencies, non-governmental organisations, and members of the public participate in discussions and debates on matters that are important to West Arnhem communities. Through its meetings, Council ensures that:

- 1. The needs and wishes of the community are raised and addressed.
- 2. There is transparency about decisions that are made in the public interest.
- 3. The development and management of community assets, resources and infrastructure, as well as the delivery of services is monitored and improved.

To meet legislative and regulatory requirements, Council must:

- 1. Hold an Ordinary Council meeting at least once every two months.
- 2. Hold a meeting where Council's financial statements are reviewed and approved during the months that an Ordinary Council meeting is not held.
- 3. Hold a minimum of four meetings for each Local Authority each year.
- 4. Determine the number of committee meetings that should be held each year in accordance with legislative and regulatory requirements.
- 5. Provide information about the dates, times and locations for meetings to the public.

COMMENT

A report will go to Council at the November meeting for consideration for a change in the Ordinary Council dates for the 2024 calendar year.
