

RICK MULVEY

CHIEF OPERATING OFFICER

Rick is an experienced and qualified asset management and operational professional, with exposure across a number of industries including defence, resource, logistics, transport and local government. He is known as a safety focused, innovative and collaborative leader with a drive to build high performing and empowered teams. Experience gained through exposure to industry leading organization's place Rick well to build upon WARC's long term vision.

Rick comes from a mechanical trade background with further tertiary qualifications related to Personnel Management, Workplace Safety and Asset/Maintenance Management

along with a strong hands on approach to ensure that community needs are met through a pragmatic and decisive approach.

Joining WARC in April 2022 Rick has driven a fresh style of building strong relationships with all key stakeholders and placing clearly articulated operational and asset management plans to ensure positive outcomes for the region, utilising LEAN methodology and an overall push for efficiency gain.

Rick is building an operational leadership team of highly competent, culturally aware, motivated, supported and influential individuals who care and are committed to the organisation and community.
